OF THE

9TH ANNUAL DOLLAR SHOE SALE

30,000 Pairs Oxfords & Shoes
For Men, Women and Children

**Shoes for
Everybody**

This sale is so far-reach-
ing that it is of vital in-
terest to every person in
Southern California. The
30,000 pairs are divided
approximately as follows:
18,000 Pairs of Shoes and
Oxfords for Women.
6,000 Pairs of Shoes and
Oxfords for Men.
3,000 Pairs of Shoes, Ox-
fords, Slippers, for
Misses and Children.
3,000 Pairs of Boys' Shoes
and Oxfords.

**Last Year
5,200
Square Feet Selling
Space**

When our buyer went East to prepare for this sale the management instructed him this way: "Buy a few thousand
pairs less, but get better shoes all the way through." And he carried out the instructions to the letter. Every one
who has seen the shoes will tell you the values are better, the styles are more desirable, the widths and sizes are more
varied; in fact, the choosing will be better all the way through.

**Sale Will Continue Wednesday, Thursday
and Friday Only**

We've determined to sell the 30,000 pairs in three days. Now, to do this it becomes necessary to double the selling space, to double the
sales force, and to double the facilities for handling the crowds.
Last year we took over the annex floor—5200 square feet of floor space; this year we've taken the entire space formerly occupied by the
Men's and Boys' Clothing on the second floor—a total of 9100 square feet. We've been hiring salespeople for the past two weeks, instructing
them in the store system, and in every way making them proficient to handle the trade quickly.
By clever arrangement we will have double the seating capacity, double the shoe racks, and double the number of salespeople to wait on you.
We expect to accommodate between 10,000 and 15,000 people the first day. We have profited by former experience, and although
there will be great crowds, don't worry, there are plenty of shoes for all, and the best of them can't be picked out in a minute.

**This Year
9,100

**All
Celebrated
Makes**

These are not ordinary
sale shoes. They come
from factories that are
well known throughout
the country. Below we
give a few of the factory
names:

making thoroughly reli-
able shoes, worth up to

DESPERADO CAPTURED.

Butte, Mont., Crowd Threatens Lynch-
ing if Identity of Murderer is
Established.

(Associated Press Day Report.)
BUTTE (Mont.) July 21.—Faddy
Rogers, alleged bandit, boasted had
man and all-around desperado, is in
jail for the murder of Michael Henry
in a saloon on the outskirts last Sat-
urday night. Henry was carried three
miles away, upon the shoulders of thirty
miners, who took this dramatic method
of protest against the lawlessness
reigning in Butte.

The Henry murder occurred in a sal-
oon hold-up. While his hands were
up Henry was shot through the heart,
at close range. The men engaged in
the robbery were masked, but several
witnesses declare the murderer is
Rogers.

Rogers was tried and acquitted a few
years ago for the murder of an old
man in a saloon brawl. As a mere boy,
when wanted on a robbery charge, he
fled into the hills, rifle in hand, and
defied the police for weeks. He was cap-
tured later near Lewistown, Mont.,
and sent to the state prison.

He has figured in several shooting
scrapes with the police.
Lynchings are now openly talked of
if Rogers is identified as the masked
murderer of Henry is established.

SAN JOSE, July 21.—(Exclusive Dis-
patch.) Burt J. Forbes was arraigned
before Justice Wallace this morning
for obtaining money under false pre-
tenses. Attorney W. M. Beggs has
placed the charge against him. In
July, 1906, so Beggs alleges, Forbes,
who represented himself to be an agent
of the Edward Thompson Company,
law book publishers, got the attorney
to endorse a draft for \$100. Forbes ob-
tained the money on the draft and left
town. The Thompson people refused
to honor it, and Beggs was out \$100.
He secured a warrant for Forbes' ar-
rest, but the latter escaped.
A few days ago he was located in
Auburn, where he was serving a term

WHERE IS BALDWIN'S BALLOON?

Was Shipped from New York to Fort

Reach Destination.
(By Direct Wire to the Times.)
WASHINGTON, July 21.—(Exclu-
sive Dispatch.) Anxiety as to the
whereabouts of Capt. Thomas S. Bald-
win's dirigible balloon is beginning to
sit on the brows of Gen. Allen, chief
of the signal corps of the army, and
Capt. Wallace, his assistant. The bal-
loon was shipped from New York
Thursday, being billed to the govern-
ment reservation at Fort Meyer, where
its tests are to be made. The Gen-
eral wired Baldwin at his New York
and his Hammondport addresses, ask-
ing for information as to the time of
arrival of the shipment. The army of-
ficers are surprised to learn that al-
though the railroads are not so busy
as they were a year ago, it is still im-
possible to get a car through from
New York in less than five or six
days.
Gen. Allen is desirous of having all
the tests completed before October, so
that Lieut. Frank P. Lahn, one of
the experts on ballooning in the army,
may be one of three representatives of
the Aero Club of America in the bal-
loon races at Berlin during the sum-

WISE TALKS

By The "OFFICE BOY"

Conscience is the alarm clock of a man's mind, but the trouble is most people forget to look it up. A merchant, who was to feel the public at a time, like the hen that tried to lay a corner stone, finds she was tackled for big a proposal. The old man told me that day that he believed in a merchant who accumulated wealth by dishonest means would lose it. He said his conscience had been that it only one generation from the clerk for that kind of work. Why not play fair? Why not do what you can for the good of the world? He said he would do it for \$1.25, and would help. The minute you say a suit that cost that much \$0.50 that never was worth \$7.50, that is not a suit, even a \$10 article, is not that kind of store the price over stores that don't care in getting rich. Stores that only handle goods, stores that are too busy and trying to make a profit, a substantial city, head of a city of promoters, stores and profits.

RAPID FIRE COSTLY.
Wool-Pulling Establishment on North Main Street Destroyed, With Big Loss.
The Kaufman-Davidson Company's wool-pulling plant at Wilbur and Main streets was destroyed by fire early yesterday morning. The loss is about \$25,000, partly covered by insurance. The plant is near the Standard Oil Company's tanks and for a time these were threatened. Several men employed in the upper part of the building had thrilling escapes, so rapid was the spread of the flames. No one was injured.

Trolley Line Files Condemnation Suits and Early Construction is Expected.
With the intention of eventually connecting Santa Ana with Newport Beach, where increasing travel is shown by the increased service of the Southern Pacific, the Los Angeles Inter-urban Railway Company has filed three suits at Santa Ana to condemn a right of way between the Pacific Electric yards in that city and the California Sugar Company's factory on South Main street, a stretch of two miles. This is expected to be the first installment of the line.

Overcome by gas, Mrs. E. Janis of No. 618 San Julian street, was found in her room early yesterday morning and was hurried to the Receiving Hospital where physicians worked for an hour to revive her. She will recover. She has been sick and helpless.

STRENGTHENS THE LUNGS
A child should not be neglected, as it leaves the lungs peculiarly susceptible to the tubercular germ. To break up a cold quickly, mix a half ounce of Virgin Oil of Pine with two ounces of glycerine and a half pint of good whiskey; shake well and take a teaspoonful every four hours. This mixture will heal and strengthen the lungs and cure any cough that is curable.

There are many who need it. Your doctor advises beer. The healthiest peoples of the world drink the most of it. But it is good advice to say, "Don't drink the wrong beer." Some beer causes biliousness. Schlitz does not. Schlitz beer is both good and good for you. Nine people in ten would be better for drinking it. Schlitz is the home beer, because of its absolute purity. It is aged for months, then filtered, then sterilized. There are no after effects.

RACE NEARS GOAL OF BETTER ROADS.

Workers Prepared for the Final Spurt One Week from Tomorrow. Claremont Joins Boosters' Army. Call for Automobiles.

THE good roads campaign committee yesterday sent a call to every precinct in the county for workers to assist in drumming up interest in the coming election. Further contributions toward the campaign fund were also requested.

The Executive Committee announced yesterday that on election day automobiles will be sent to every precinct in the city, and to many of the country precincts to assist in getting the voters to the polls.

A Times representative visited Claremont yesterday to ascertain the sentiment there regarding the coming bond election. He found the citizens very strong in their support of the good roads movement.

The stirring city of Pomona has come to the forefront in earnest support of the bond issue and will hold a mass-meeting to push the cause along.

The president of the Los Angeles Realty Board yesterday addressed a letter to the real estate men of this city, urging them to use their influence to secure the passage of the good roads bonds.

With only eight days intervening before the day of the bond election, the Campaign Committee of the Good Roads Association is exerting every effort to line up the voters of the county preparatory to the struggle. A call has been sent out for workers in every precinct so that every day between now and the 30th inst. may be made to count.

Yesterday the Campaign Committee made a plea for more money for campaign expenses, pointing out that the cost of mailing the literature alone amounts to no inconsiderable sum. An effort is being made to let each part of the county have its full share of attention and the committee men are kept busy nearly every night at some meeting or other.

Already many replies have been received to the letters which the members of the Civic Improvement Association, have been sending out, and pledges of support have been the rule.

Outside cities, which heretofore have shown but little apparent interest in the coming good roads bond election, are awakening to the necessity for getting on the winning line. Requests for speakers are received every day at headquarters, and it has been found necessary to open a ledger in which the date of each meeting and the names of the speakers detailed are inscribed.

The South Side Improvement Association probably will hold another meeting within a few days. Considerable dissatisfaction has been expressed over the lack of result of that held Monday night, and the supporters of the bonds in the district insist that at the next one, the "antis" will not be allowed to block the vote.

The Campaign Committee yesterday sent out the following circular letter: "It is imperative that the various precincts in the city for the bond election be canvassed and covered by voluntary workers, that the vote may be gotten out. The Campaign Committee believes that there are many in the city who will heed its call for help. Let all those who are interested in this great movement for good roads call immediately at campaign headquarters, Chamber of Commerce, list their names, get literature, and be assigned to their precinct and work. This does not mean a large amount of time, but it does require interest, enthusiasm and faith in the cause, and familiarity with the situation. Come out and help."

AUTOS FOR VOTERS.

PLANS FOR ELECTION DAY.

The good roads Campaign Committee yesterday took up the question of providing ways and means for getting voters to the polls on election day—a week from tomorrow. District chairmen from all parts of the county called at headquarters during the day and spent considerable time in consultation with the committee men.

The members of the committee believe that they have evolved a plan whereby the maximum number of ballots will be cast. Every precinct in the county will be cared for, and they expect a greater ballot than has ever been cast at any non-political election in the history of the county.

The Automobile Dealers' Association has joined forces with the Campaign Committee. At least one motor car will be allotted to every city precinct of election people for use in rounding up voters who may neglect to go to the polls. Each of the precinct committees will be in charge of a precinct committee man and a determined effort will be made to get every voter to the polls, no matter what his convictions may be regarding the bonds.

The country precincts have not been left out of the figuring, and wherever any request for assistance has been made the committee men will try hard to furnish it. Wherever it may be possible automobiles will be detailed to the country precincts the same as in the city, and the committee hopes that before election day the list of available machines will be so large that one will be available for every country precinct.

Ten thousand bright orange banners, bearing the legend "Vote for Good Roads," have been ordered, and will come this week. These will be distributed among the automobile owners with the request that they be placed conspicuously on the machines.

On election day an effort will be made to decorate not only every automobile, but all carriages and other vehicles with the banners. These rigs will be sent into the outlying districts in an endeavor to drum up enthusiasm.

Orange-bued placards, as well as banners of cloth, with appropriate inscriptions, have been ordered. These will be attached to the cars of the Pacific Electric and Los Angeles Pacific lines, as well as to all of the local electric cars.

An additional supply of good roads buttons has been ordered, and will be ready within a few days. On election day the campaigners will tag every man they meet and see that he gets to the polls, provided he is entitled to a vote.

ROOM FOR MORE FRUIT.

Cry of Overproduction False Alarm, Says Santa Fe Official Here With Others on Tour.

Officials of the Santa Fe system are here in force just now. Among them are Edward Chambers, general freight traffic manager of San Francisco; H. W. Jacobs, superintendent of motive power; V. E. Epier of Claremont, Tex., superintendent of the bonus department; and D. C. Thomas of San Bernardino, chief clerk of the bonus department. They are all at the Alexandria.

Mr. Chambers said last night that their presence is merely coincidental to his business at this time of the year. He is "looking for more business," to use his own phrase. Mr. Jacobs is on a tour of inspection, and Mr. Epier is on an examining tour.

"The citrus and deciduous fruit growers of Southern California," said Mr. Chambers, "have the best system of distribution for their crops of any producers in the world. And it is because that assembly and distribution are directed by intelligence that it is an example to all other producers."

"When I came to the Coast in 1887 it seemed to be a big thing to ship 150 cars a year. When the 10,000-mark was reached it seemed quite stupendous. Last year the shipments were 30,000 cars, and the growers, organized as they are and guided by such intelligent distribution, could just as easily ship 50,000. Their system and success ought to be studied by others."

"The melon growers could well imitate them, for the cry of overproduction is a false alarm. There is no overproduction if the products are marketed intelligently."

NAMES SWELL BIG REGISTER.

Hundred Thousand in Sight for Fall Election. This Last Day to Get on for August Primaries.

When the Great Register closes tonight for the primary election of August 11, approximately 50,000 electors in Los Angeles county will be qualified to cast their ballots. Of course, there is no expectation that this number will attend the primaries, and there is no prediction that presupposes that more than one-fourth of them will vote for primary candidates. But if the election were August 11 instead of November 3, the total vote would not exceed 50,000.

Deputy County Clerk Robert Brown, who has charge of the registration, had 32,664 names of voters registered at the beginning of yesterday's business hours. Of these 55,681 were city, and 26,973 country. This is 1633 more than the entire number registered for the election of 1906. He believes that the additions to be reported for yesterday and

NATIVE SONS ENTHUSE.

Members of Sierra Madre Parlor, at Second Annual Banquet, Talk and Have Fun.

Sierra Madre Parlor, Native Sons of the Golden West, held its second annual banquet last night at the Bristol cafe. Sixty members dined in splendid style, and the evening was enlivened by many witty and patriotic speeches. Excellent progress was reported in the work of the past year, and brilliant prospects were outlined for the coming season. Frank G. Tyrrell was toastmaster. The toasts and responses were as follows: "The Sierra Parlor is the best parlor," E. R. Lewis; "The Native Sons," J. N. O. Reck; "Why I am a member of Sierra Madre Parlor," Ray Howard; "How the Native Sons did politics at Yosemite," W. F. Bryant; "The Grand Parlor," H. C. Lichtenberger; N. F. Emory, Paul Dougherty and others also spoke. The evening was made somewhat memorable by the issue of a grilling satirical yellow paper, called "The Dirty Cur." Members found in its columns hot roasts on themselves—all of which they took good-naturedly.

The services were read by Rev. Dr. Lamport, pastor of the First Methodist Church, and were preliminary to the shipment of the body today to Cincinnati, where burial will take place.

FINE RANCHES LOST BY INNOCENT BUYERS.

BY A sweeping decision, rendered yesterday in the local Land Office, innocent purchasers of undeveloped government land, which was originally acquired fraudulently, lose their title. The decision affects many valuable tracts in the Imperial Valley, and an appeal will undoubtedly be taken to the General Land Office at Washington.

From the present attitude of government officials, it is evident that they believe wholesale frauds have been perpetrated in the Imperial country through alleged improper assignments. This view is strongly opposed by powerful interests which have been largely instrumental in developing the splendid domain to its highly-prosperous condition.

It has been urged that only by means of assignments of sections to persons able to develop the same has the desert been made to produce crops that have excited the wonder of the whole world. It is maintained that the present attitude of the Department of the Interior is not that of the authorities at the time the transfers were made. But the decision handed down by Gen. Prescott, register, and Mr. Robinson, receiver of the Los Angeles office, is based on precedent and former rulings of the department.

The cases thus decided are those of Sigel E. Skinner against Harrison M. Bowker and John E. Davis, and Bird E. Noster against Corporal W. Brown. Other contests now pending will be decided in the same way, thus practically ousting settlers from their holdings, where allegations of fraud in past assignments are proved to the satisfaction of the officials.

RICH LANDS INVOLVED.

In the cases disposed of yesterday, property involved includes rich land near Calexico and Brawley. The Bowker ranch is considered one of the show places of the valley. "I regret the hardship imposed on innocent purchasers," said Gen. Prescott, "but the decision of this office was based entirely on the evidence and the law. It is the first time that Mr. Robinson and myself have been called upon to adjudicate contested cases where the innocent assignee has to suffer for the unlawful acts of his predecessors."

"Heretofore we have been able to sustain men who made large invest-

today will bring the total close to \$3,000.

County Clerk Keyes believes the total new justifies his prediction that before the election it will be swelled to 100,000. "It will certainly not be less than 95,000," said he. "You see, there are so many voters who cannot be interested in primary affairs, who always come into the register just before a national election, that there is no way of computing their numbers. The registration at the May primaries was something less than 63,000, so that the increase in three months is about 20,000. The increase required to bring the total to 100,000—about 17,000—is not an unreasonable one to expect."

The list now includes duplicates and transfers, but reductions by reason of such causes will be slight, it is estimated.

Based on the population of the county on the registration total as estimated at a ratio of 4% to every name on the register Los Angeles county has a population, using Mr. Keyes' minimum estimate of 8,000, at \$3,000.

The closing of the register tonight is only for the primaries of three weeks later. Between today and September 23 the register will be open to all who have not already registered and transfer from one voting district to another may be obtained as late as October 13.

Only those who have registered and given their party affiliations may vote in the primaries August 11. The primaries are for all parties, and participation in them is gained only by the identification of party when registering. As the primary election law applies only in Los Angeles and Pasadena 54,000 of the total number may participate, providing they have qualified by party identification. The registry certificates this year show a large number who have not stated their party affiliation. It is also shown by the registry that the Republican majority is more overwhelming than was anticipated even by those who were in a position to make estimates of its increase.

The 25,975 voters classed as country—which means outside of Los Angeles and Pasadena—will have no primaries to participate in. The Congressional informal primaries of the Republicans were held Monday, and the Democrats will probably follow the caucus system of selecting delegates to their county and Congressional conventions and to the State convention.

DIES FROM POISON.

Cement Contractor Who Drank Cyanide of Potassium, Regarded as Suicide Victim.

Chauncey L. McComb, a cement contractor of this city, died at the home of his mother, No. 1902 West Thirty-sixth place, Monday afternoon. The matter was not reported to Coroner Hartwell until yesterday, and after an investigation a certificate stating that McComb came to his death as the result of drinking cyanide of potassium with suicidal intent, was signed.

Though the coroner is satisfied that McComb committed suicide a brother, N. M. McComb, declares that it was a case of accidental death. He declares that McComb mistook the cyanide, which he says was in a package in the medicine chest, for medicine which he was taking, and died as a result of his mistake.

The death of McComb came after months of dissipation, in which the contractor apparently tried to drown the sorrow of his separation from his wife, which occurred about a year ago. McComb leaves a widow and child. The body is at the St. Louis morgue.

CAT STARTS FIRE.

Overturns Lamp and House and Its Contents Are Damaged—Feline Missing.

A kerosene lamp which was overturned by a cat in the residence of William Carles, No. 529 Alpiet street, about 9 o'clock last night, caused a fire which partly destroyed the house. Members of the family were sitting on the front porch when the lamp exploded.

Carles rushed into the house, finding the kitchen in flames. After turning in an alarm he began to carry out the furniture, part of which he saved. The damage to the building was estimated at \$400, while the loss on the contents was placed at \$75. The property is owned by Mrs. Mary D. Schwartz and is insured.

The cat is missing.

HE GOT BENSON FREED.

J. C. Campbell of San Francisco reached Los Angeles with his wife and daughter in an automobile tour Monday and took a suite at the Alexandria. Mr. Campbell has just returned from Washington, D. C., where he defended and secured the acquittal of Benson and Diamond in the land-fraud cases of Northern California and Oregon. After spending 106 days in this trial, Mr. Campbell felt a vacation was due him. He and his family will remain here for ten days.

The Inter-State Land Company of

has decided upon developing the ter-

The men behind the concern are

originally had the land under lease, is

no longer connected with the company.

The severance of his relations is com-

declared to be without the slightest

foundation by W. F. Cunningham, one

of the principal parties interested who

has been the company's representative

adhered to President Schofield's policy

of non-interference and has even de-

Good Roads

We do not own an automobile, do not ride a bicycle and don't have much time to drive a span of horses over the roads of Los Angeles County; but withal, do believe that we owe it to ourselves, to the strangers whom we invite within our gates, to build good highways. We believe that the men who will expend the Bond Money are honest, and hope to see the Bonds carry by an overwhelming majority.

While we add our influence to the upbuilding of the section we all love, still we pay for this space to advertise our business, and as a special for Wednesday and balance of the week, offer

Old and young alike are interested in The Times scholarship contestants. Yesterday, Mary Pearl Pottol, the "Monrovia Maid," took another leap up the ladder, and she was aided by an old gentleman, E. H. Collins, who can boast of having walked the ways of this world for 54 years. He can also make a more unusual boast, for his father fought in the Revolutionary War.

"She is a nice little thing," said the old gentleman whose life is a connecting link with a far-gone past, "and I want to help her."

Former Judge Carpenter of Los Angeles, who has been a fairly godfather to Times contestants in the past, called at headquarters yesterday. He declared that he has made a bet of \$100 to 25 cents that he will not go into another contest for anybody; but the way he talked to several bright-eyed girls, and the eager interest he displayed would argue that he is in serious danger of losing his bet.

At the Soldiers' Home the "old boys in blue" watch the progress of their favorites with eagle eyes, and stand up for their rights as staunchly as they ever stood up for the nation's rights in days gone by. There are also many small boys eager to help in the race. A hustling little team out in the interest of Eva Mathews, the promising young artist, are Vernon Monroe and Guy Cole, and their help is worth having, too. Indeed, all over the city, friends and small brothers and sisters are busy on their coupon routes.

One clever lad who entered quite late in the day is Leon Risenburger of Pasadena, and he is making things hum out there. He has won the twentieth time for himself in a short time, and the high fifteen may look out for Leon, for he is surely coming.

Charles Yglesias, the tiny violinist, who is starting today, is an earnest little worker. He has set his heart on continuing his violin course at the Los Angeles Conservatory of Music and Art, and such a talent as his should be a matter of public pride. He is small, but that violin of his speaks a volume of language when the bow is lovingly wielded by its owner. Charles has attended the Grand-avenue school ever since he was in the kindergarten, and he is first violin in the school orchestra which has won such a reputation.

So many music lovers in the contest this year, Walter Damrosch spoke truly when he looked into the faces of Los Angeles school children last winter held in thrall by his great orchestral triumphs, and said that a great composer of the future was probably looking up at him among these children. Several small girls are striving with all their might and main for a scholarship in the Eva Keller Piano School. Miss Keller has taught Jennie Bloom, the Boston street girl of last year, and the year before; and Lizzie Shapiro and Hazel Pester, two little

A Little Master of the violin, Charles Yglesias.

Friends and neighbors are both eager for the same splendid advantage that the interest of Hazel this time. Japan entered the race yesterday, T. Fujimori, the first Japanese youth to enter a Times scholarship contest, representing that nationality. He did not feel at all dismayed at getting so late a start. He is anxious for a course at St. Vincent's College, and intends to work every spare moment to gain it. He is employed much of the time at the Concordia Club.

Gertrude Flick's pretty face was seen at headquarters yesterday for the first time in a week, for she has been taking in Riverside and Anson, where she once lived and has had a delightful visit. She also has a number of points that she is going to spring on the others some time in the near future.

Myrtle Hall had a slight setback a few days ago; she was riding her wheel and was run into by a motorcycle, sustaining some painful bruises which have kept her from canvassing and made her fall back in the score. It is only a temporary loss, however, for this good little worker will soon catch up again.

TRIM YOUR COUPONS. Children, and grown-ups, as well, trim the coupons you send into The Times office and sew them into neat packages of twenty-five, or put a rubber band about them! Do not send in ragged-looking coupons as they are difficult to count and clog the wheels of business. The name of the contestant should be written on the top coupon.

THE PRIZES. Besides the valuable scholarships for which the young people are working, The Times offers fifteen cash prizes for those making the highest scores next to the top liner, who will receive the prize piano. The cash prizes totaling \$1500 are arranged as follows:

THE PIANO. The first prize to be awarded to the winner of the contest in addition to a choice of scholarships is a splendid Fairbanks piano from the Southern California Music Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company, and a special feature, and is doubly guaranteed. It is known among musicians for its exquisite tonal qualities and responsive action. The case may be of rich mahogany or dark oak.

TAMPERING WITH MAILS.

Two Negroes, One Who Says He's a Lawyer, Taken by the Federal Authorities. A negro giving the name of Mack Harris, was arrested by the Federal authorities yesterday, charged with tampering with the mails. W. B. Coleman, another negro, who says he is a lawyer, was arrested as an accomplice and released on \$250 bonds. Unable to furnish bail of \$1000, Harris

was locked up in the County Jail. According to the postal inspectors, he endeavored to tamper with a letter addressed to the father of a child of the name of Harris. Learning that Mack Harris of Hollywood owned some property in Johnson City, Tex., he tried to tamper with the letter and wrote to S. H. Harris, the father, requesting him to sell the property and send him the money. The father of course at once detected the forgery and notified the authorities.

Harris acted as legal advisor for the negro and did some correspondence for him. He stated that he had no idea his client was poisoning an other man, and disclaimed any guilty knowledge of the fraud.

SPOOK FIRE IN SPOOK HOUSE?

POLICE TO SEARCH FOR SOLUTION OF MYSTERY.

Tenants, Picturesque Old Mansion at Figueroa and Jefferson Streets Without Evident Cause—Landmark of the University Region Now a Ruin.

Partially destroyed the unoccupied "haunted house" at Figueroa and Jefferson streets early yesterday morning. Like everything about the "haunted house" the fire was mysterious. The first indication of fire was when smoke was seen issuing from the upper windows of the silent, lonely old two-story dwelling.

When the firemen arrived the place seemed doomed. Quick work soon got the flames under control and the loss will not exceed \$1000, fully insured, according to an estimate made yesterday by the police. The place belongs to John V. Vickers of the firm of Vail & Vickers, wealthy cattle men.

Years ago the old Jefferson-street house was one of the mansions of Los Angeles. Built far from even the residence district the place assumed the proportion of a country manor. It had spacious grounds. Those who dwell there entertained lavishly.

Then misfortune seemed to mark the place for her own. Several persons died in the house at intervals and then the house stood vacant for several years.

As the University section began to build up this landmark was one of the interesting spectacles of the section. It was offered for rent ridiculously cheap, but families remained only a few months in spite of all inducements.

Several years ago the story that the place was haunted was given credence when a family left the place declaring a choice of scholars is a splendid Fairbanks piano from the Southern California Music Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company, and a special feature, and is doubly guaranteed.

It is known among musicians for its exquisite tonal qualities and responsive action. The case may be of rich mahogany or dark oak.

Below is a partial list of the scholarships offered to contestants. It will be increased from time to time, as a number of other institutions will be included.
